

Job Description & Job Specification

Job Title: Full Stack Developer (.NET & React)	Location: Head Office, Rawalpindi
Department: IT	Nature of Job: Desk Job
Job Level: Mid-Level	Gender Preference: No Preference
Category: Full Time Employment	Remuneration: Market Competitive

Last Date to Apply: June 06, 2025

Job Summary:

We are seeking a Full Stack Developer with hands-on experience in developing robust, scalable applications using .NET for backend and React.js for frontend. The ideal candidate will work closely with cross-functional teams to design, develop, test, and deploy high-quality software systems. This is a growth-oriented role ideal for a developer with a solid technical foundation and a passion for modern development practices.

Job Responsibilities:

- Design, develop, and maintain scalable web applications using .NET (C#) and React.js.
- Integrate APIs, manage databases, and ensure end-to-end functionality from UI to backend services.
- Collaborate with QA engineers, and other developers for optimal solution delivery.
- Participate in code reviews and provide constructive feedback to peers.

Qualifications:

- Bachelor's degree in computer science, Software Engineering, or related field.
- 1 to 2 years of professional experience in full stack development.
- Proficient in .NET Core / ASP.NET MVC, C#, Entity Framework, and Postgre, Mongo DB.
- Solid hands-on experience with React.js, JavaScript (ES6+), HTML5, and CSS3.
- Experience in working with RESTful APIs and third-party integrations.
- Familiarity with Git-based workflows and tools such as GitHub or GitLab.

Preferred Skills (Nice to Have):

- Familiarity with microservices architecture.
- Exposure to cloud platforms (e.g., Azure or AWS).
- Knowledge of DevOps tools and CI/CD pipelines.
- Understanding of secure coding practices and role-based authentication.
- Key Tools & Technologies:
- .NET Core / ASP.NET MVC
- React.js
- Postgre, Mongo DB
- REST APIs
- Jira / Trello / Azure Boards (Project Management tools)

Benefits:

- Competitive salary package
- Professional development and upskilling support
- Exposure to modern tech stacks and real-world projects
